

Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for service, technology, delivery and quality. They believe in working in an environment that encourages the utmost integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious business and offering a safe environment for their staff to work in. Moreover, they have applied many programs within the organization in order to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever questions or comments, as they are glad to share and promote this policy with a greater understanding of their efforts. They are really committed to preserving and improving the natural world. AxleTech has an EHS program that not only protects the natural world but which also actively protects their neighbors and workers as well.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles utilized for both commercial and military applications. These applications range from airport ground support to construction equipment. AxleTech specifically designs axles to meet particular application demands. They have more than 1000 various axle specs in their present offering. With more than one hundred years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in various commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle needs for OE production. Their high mobility ISAS have added details which could be seen in the "ISAS" product collection.
