

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with components covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very impressive global support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally accepted quality standard ISO 9001 for all of their production facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the extremely economical and beneficial system of "Lean Production" for its assembly facilities and application of resources. This system was established to acknowledge the most successful approaches of manufacturing facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The new value engineering agenda combines progressive product growth and delivers improved client support and service within the industry.
