Genie Forklift Parts - Genie is a universally acclaimed company that enjoys the spirit of partnership with their extensive network of connected clients. Genie Industries prides itself on the idea of bringing materials and people higher and extending beyond the goods they design. Genie Industries strives to help clientele erect their business no matter how large or small the level of operation may be.

The inauguration of the Genie Hoist in 1996, a pneumatic, versatile material lift initiated the start of Genie Industries. A succession of aerial work platforms and additional materials lift trucks followed to meet consumer demand. These innovative products secured global recognition and established state-of-the-art product design.

Genie Industries is presently a subsidiary of Terex Corporation. Sustaining leading quality production and uncompromising service and support are among their highest priorities. Acknowledging that their consumers are their greatest inspiration, the team at Genie Industries are personally committed to delivering expertise and maintaining customer rapport.

The conscientious team is continually dedicated to recognize the most green and cost-effective, environmentally accountable methods to develop the goods the clients covet. Thriving on consumer criticism allows Genie Industries to repetitively evolve and meet the consumers' needs.
