

Meritor Parts

Meritor Parts - Meritor is a leading global supplier which is proudly built on a 100 year tradition of quality and service. They focus on different modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage within the worldwide operations. The business values all of their customers and wants to guarantee their success while anticipating their diverse requirements. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

By only hiring future focused staff, Meritor strongly believes these top-caliber people would be able to quickly adapt to changing environments and demonstrate the commitment and performance considered necessary so as to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all their employees different chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise drivelines, axles, braking and suspension systems used for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their global engineering workers.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all around the world in 19 nations and in 5 different continents.

The supplier development network is particularly situated so as to support new business development. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within every part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business processes and implement lean methods.
